"GREAT WESTERN."

WE HOW GUARANTEE PAYMENT ON AFTERTHOUGHT.

sure as you and I live, the Alterthought will make for mass for stockholous of the Great Western." G. W. Langiet says: "Take smelts: rom the Most and Copper mines. I do not see how Great Western stockholders could change Alterthought for Mountain Copper." James salice. San Francisco, says: "Alterthought is one of the richest mines in California." M. E. Dittinar says: "Afterthought alone make fired Western a glit-edge, high-grade stock." H. H. Hunter, minling engineer, says: "Alterthought is the best mine in Shasta County."

Fundreds of other stockholders visiting the mines are more than plansed. We say that in buying Grent Western gold stock at 10 cents a share for every 10 cents you lay down you are gettling a dollar in return. The par value is a dollar. If you want an interest in real mines buy Great Western (our smelter is being rushed to completion. But in ten, twenty, fifty, a hundred, a thousand into Great Western at 10 cents, and lay the foundation which will make you independent.

The steel stocks, for the first Security Christine in several days, seemed to receive in North Review Christian Ch time in several days, seemed to receive inside support, notwithstanding bearish trade conditions, and a number of specialties were taken up, apparently for absorption. The list displayed firmness at the close. Among the important railroad returns of the day were the annual reports of the Atchison and St. Paul systems. Atchison was the feature of the day recovering from its early depression and once more leading the market.

Operations in St. Paul were unimportant Business with London was nominal being retarded by cable interruption. Leadings with that center were of an arbitrage character, and were limited aimost altogether to Atchison and the steed stocks, Advices indicate that another advance in discount rates may be expected both from London and Berlin, This, it is assumed, is in line with the policy of the leading financial institutions of Europe to discourage gold shipments to this computer.

The present discount rate of the Bank of England, 4 per cent, made last week is the highest since February of 190. Any advance by the Imperial Bank of Germany would excite little surprise in view of the steady frain on the bank's cash holdings. The known movements of local currency point to a nominal lass by the banks to the Subtreasury. The latter assistation disbursed to-day \$55.000 fr. Klondike gold. Word was received of another shipment of \$50.000 Australian gold to this country. Sterling exchange was again weak, with further offerings of cotton and grain bills. Later that market made partfal recovery.

The bond market showed some irregularity again, and the movement either way was extremely narrow. Total sales, par value, \$1.05,500. United States bonds were all unchanged on the last call.

crop report. The figures on the total yield looked small, but the average of percentage was better than on the corresponding day in August. The longs made an elfort to advance prices in the first, but there was not enough steam behind the buyin movement and values sagged of their own weight whenever selling pressure waapplied. Most of the legitimate news was decidedly bearish. Cables came lower and all foreign markets were easy. There was practically no export inquiry and the our-side domestic demand was extremely small. Minneapolis traders were good buyers in the first hour, but toward the close that market, as well as Chicago, took a down-Ward turn.
